

Fiber Patch Panel 19" 4 – Cutout 1U Loaded

The Fiber Panels are designed with 4 cutouts to mount adapter plate assemblies. With the special sliding design, this panel allows easy access during installation or rework without disturbing the previously terminated fiber cable. This also offers multiple cable entries to provide various customized solutions as per the customers' requirements. This panel comes with adaptor plates which are preloaded with couplers and can snap in for installation and can be removed easily for future changes. This panel is preloaded with Splice tray & necessary fiber management accessories.

Features

- Standard 19-inch Rack Mountable
- Innovative and robust design
- Unique slide design, structural stability, easy to use and operate, slides smoothly without interference.
- Accepts Four adapter plates or 4 MPO/MTP Cassettes
