

RJ 45 Port Blocker

The RJ45 Port Blocker/Plug is designed to enable port protection in standard RJ45 copper ports. It is highly recommended for Data Centre, Work area applications and where the physical security is a prime importance. Auto lock the Jack by inserting the RJ45 port blocker and to unlock the jack you should use the key.

Features

- Complies to TIA-568.2-D Standards.
- Compatible with industry standard RJ-45 ports in electronic equipment, patch panels, and Outlets
- Compatible with high-density network equipment and 1U 48-port patch panels
- Covered under 3C3® Performance Warranty
